*This information was provided to HEMS, Inc. by the listed hospitals as an indication of the usual capabilities of their respective Emergency Departments. This listing is subject to change at any time, e.g., when specialty physicians and/or equipment is/is not available. This information is made available as a guideline only and does not constitute a respresentation or guarantee that a particular speciality will be available at a given hospital at a given time. Pursuant to EMS Service Operations Protocols, whenever a patient is transported EMS/Pre-Hospital Care Personnel must contact HEMS for location and status of the closest appropriate (depending on priority of the patient) facility .
